1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on February 3, 2004 has been entered.

2. The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable over the prior art of record or any combination thereof. The prior art of record does not teach or suggest the combination of G-CSF having a sugar chain and a non-ionic surfactant at a pH of 6-6.8 wherein substantially no protein stabilizer is present. The declaration by Sato under 37 CFR 1.132 filed February 3, 2004 probatively demonstrates the criticality of Applicants' claimed pH range, and accordingly rebuts any prima facie case of obviousness as set forth in the prior art rejections recited in paragraphs 2 and 3 of the Office action mailed January 3, 2003.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
